

## INSTRUCTIONS FOR USING PRODUPLICATOR

1. Turn machine on by pressing POWER button at the top right side of machine
2. Wait for the machine to boot up and you see the following display on the screen:

3. Push button on the TOP disc drive to open. This is the source drive.
4. Place the disc that you want to COPY into the top tray and close it by pressing the button again on the drive to close.
5. The next FIVE drives are the BURNING drives. You can burn from 1 to 5 discs at once. Open up as many drives as needed.
6. Insert blank disc(s) into the tray(s) and press the button(s) to close.
7. Once all drives are closed PRESS blue ENTER button  to begin the duplicating process.
8. When process is completed, the display will show "OK" and the time spent duplicating. The copied disc(s) will then eject.
9. Eject your source disc from the top tray.
10. Process is completed. Please make sure all drives are closed, and then press the power button again to turn the device off. Thank you!
